GLOBE, GILA COUNTY, ARIZONA, THURSDAY, JUNE 21, 1906.

Established 1878.

## GLOBE DISTRICT MINING NEWS

### Arizona Commercial Pleases President Amster. Opening Big Ore Body

### THE OLD DOMINION OUTPUT

Eighty Tons of Blister Copper in 24 Hours is the Record—Company has Four Furnaces in Blast Pushing Production Forward

President N. L. Amster of the Arizona Commercial Copper company, and J. H. Cody of Hayden, Stone & Co., arrived from Boston Wednesday night and will remain several days.

The gentlemen spent the forenoon today inspecting the Copper Hill and Black Hawk mines, devoting most of the time to the latter property. Mr. Amster stated that although he had been kept informed of the developments in the Black Hawk, the ore body on the 500-foot level exceeded his expectations. The crosscut is still in ore, which is now over 80 feet wide, and the drifts, started on Tuesday, are both in ore of a very good grade. The 500-foot crosscut has been driven nearly 90 feet and for 40 feet of the distance has been in ledge matter carrying some iron and a little copper, with a gradually increasing percentage of the latter metal. It is probable that this crosscut will enter the main ore body within the next 20 or 30 feet, and the management expects to find the ore fully as good if not better than on the 400-foot level.

President Amster informs us that construction work on the railroad to connect the Black Hawk and Copper Hill mines with the Old Dominion railroad at a point above the smelter, will be started just as soon as a crew can be organized and the necessary horses, scrapers etc., assembled. If the work is begun within the next two weeks the railroad should be completed by October. Before Mr. Amster leaves on his return to the East the site for a three-compartment shaft will be located, and the shaft will be sunk as rapidly as practicable, 600 feet or deeper. A new hoist and other machinery will also be purchased.

The Old Dominion made several remarkable smelter runs during the past week, breaking all records on Sunday with an output of 80 tons of blister copper. The production of copper for the month will probably exceed 3,500,000 pounds. Very little is being accomplished underground this week, as the big hoist is undergoing repairs. A day or two longer will see the repairs finished and operations resumed on a larger scale. The supply of ore in the bins and from outside sources is sufficient to keep all the furnaces running. Reports from the Continental mine are highly satisfactory. Shipments of ore aggregate about 1000 tons per month.

### PRESIDENT SIGNS STATEHOOD BILL

President Roosevelt on Saturday last signed the bill admitting Indian Territory and Oklahoma as one state. The measure also provides that Arizona and New Mexico may be admitted to statehood as the state of Arizona, providing the people of the territories vote in favor of admission on the terms submitted to them by congress. Arizona will certainly not vote in favor of admission.

Published accounts of the signing of the bill do not agree in all particulars. The Associated Press alleges that one of two pens used by the president in signing the bill was a gold pen "presented by the people of Arizona." This is evidently a mistake as no one in the territory has yet pleaded guilty to the charge. The gold pen was evidently the gift of enthusiastic New Mexico jointists, as the Santa Fe New Mexican, whose representative was present when the deed was done, says "the pen cost \$20, was especially purchased for that purpose, and after the signature, he, the president, handed it to Delegate W. H. Andrews, of New Mexico, with his compliments and distinct smile."

There is also a discrepancy as to the comments made by the president. The general press report says:

"After signing the bill, President Roosevelt congratulated Senator Beveridge and Representative Hamilton on the completion of their long and arduous labors in connection with the measure. He expressed in strong terms the hope that the people of Arizona and New Mexico would avail themselves of the opportunity afforded them by law to come into the union as a state. From every view point, he said, he regarded it as a wise thing for an opportunity which might not again be offered in a score of years. The president said, too, he had a personal interest in the admission of Arizona and New Mexico as many members of his regiment, the Rough Riders, resided in those territories. He added that he hoped sincerely that the people of the territories would take advantage of the opportunity thus presented them."

The president's interest in Arizona appears to have been solely a desire to force this territory into a humiliating

union, to which nine-tenths of the people of Arizona are unalterably opposed. If the Santa Fe New Mexican's correspondent is to be believed the president offered Arizona a gratuitous insult. He is quoted as having said, "If Arizona does not take statehood now with New Mexico it may wait fifteen years; if Arizona rejects the proposition it will remind me of what the Union man said in South Carolina when the Confederate states seceded. 'Too small for a nation, too large for a lunatic asylum.'"

The Arizona Republican commenting editorially on the signing of the bill says: "But we think that the president, or whoever arranged the ceremonials of signature, overlooked something in the interest of perfect and absolute propriety. Taking into account the circumstances surrounding the introduction of the statehood bill, the circumstances which attended it in its passage through congress, and the assertions of the enemies of Arizona that this territory must be forced into the union without its consent, we think the president would have recognized, in affixing his signature, the more complete propriety of using a pen fashioned from the quill of the crow, that gloomy bird, symbolic of disappointment, misfit ideals and things generally gone awry."

### DELIGHTFUL EVENT

#### Surprise Party Given to Mr. and Mrs. Dixon of North Globe

North Globe was the scene of a most delightful surprise party, Mr. and Mrs. Dixon being most agreeably surprised by their daughter, Miss Norma and friends. About one hundred guests participated in the event.

The Globe Concert band rendered some of their best music; also the mandolin club contributed some choice selections. The Great Western male quartette contributed several numbers which were greatly enjoyed. Mr. Johns also rendered a fine bass solo. The comic solo by Prof. Vincent was very highly appreciated.

Dainty refreshments were served at 11:30, everyone voting Mr. & Mrs. Dixon a most delightful host and hostess. The guests departed wishing them a happy and prosperous voyage through life.

The following program, conducted by Prof. Thos. Vincent, was rendered: Selection, Band; quartette, Messrs. James, Ben, W. Richards and Bennett; solo, I. Lewis; overture, Mandolin Club; solo, E. Bennett; overture, Band; solo, Wm. Benbow; selection, Mandolin Club; solo, R. Richards; two step, Band; duet, Messrs. James and Benbow; two step, Mandolin Club; solo, E. Bennett; cornet solo, Prof. T. Vincent; solo, I. James; grand overture, Mandolin Club; solo, Richard Johns; waltz, Band.

### COPPER REMAINS FIRM EXPORTS ARE LARGE

The American Metal Market says: Our copper market continues quiet and firm and unchanged. The price of copper here for delivery of spot and within two months has become purely nominal. Consumers have found that in order to secure supplies, contracts must be placed at two months in advance of deliveries required. Consequently about all the business done from day to day is for such deliveries or further ahead, and the price for such deliveries constitutes the real copper market. This purchasing ahead is certain to continue until some development comes up to shake the buyers' confidence in the stability of the market. Of this there is no present prospect. As mentioned the decline in G. M. B. has had no effect on refined or American copper abroad, and we know of sales of American electrolytic copper at continental shipping ports made at 19 cents. There has been less anxiety during the past two days on the part of European buyers to place contracts, but American producers realize that with consumption and production running as they are at present there will be a call for all the copper that they will produce for the balance of the year, consequently they are quite indifferent to the fluctuations in the speculative counters used on the London Metal Exchange—namely, G. M. B.'s.

Exports of copper continue heavy, the first 13 days of June amounting to 9,357 tons.

### CONSTRUCTION STARTED ON SALT RIVER DAM

Judge J. C. Evans, who dispenses justice at Roosevelt, is in the city as plaintiff in a civil suit before the district court. He informs the SILVER BELT that J. M. O'Rourke & Co., the contractors for the great masonry dam that is to conserve the waters of Salt river for the irrigation of the lower valley, now have the proposition well in hand.

Last Friday the coffer dams having been completed, the water was turned from its regular channel into the diversion tunnel, which leaves the bed of the river where the dam is to be put in comparatively dry.

The work of removing the strata down to bed rock was to begin last Saturday. This will be accomplished by turning water in between the two coffer dams with great hydraulic pumps. The boulders and heavy particles that cannot be carried out by the water are being removed by other means. It is 30 feet to bed rock and when that is reached work on the foundation of the dam will start.

The foundation will not be laid the full width of the dam but only 30 feet wide. This will be at the upper side of the dam and will be carried up to the level of the river bed. Then if a flood comes and throws silt and other deposits behind the work it will be cleaned out again by the pumps.

When this 30 feet is finished another portion of the same thickness will be put in and so on until the full foundation is laid, then the work of building it up farther will be commenced.

## WILL CELEBRATE FOURTH OF JULY

There Will Be Big Doins in Globe. The Eagle Will Scream

### PRIZES AGGREGATE \$2000

Visitors from a Distance are Cordially Invited to Join in the Festivities—A Splendid Program for Two Days Has Been Arranged.

Although the movement for the proper observance of Independence Day was started late, yet it met with a hearty response from the business men and other patriotic citizens, and it gives the SILVER BELT pleasure to announce that a rousing celebration of the "Glorious Fourth" is assured.

To Wm. Henderson and Chas. A. Nesbitt belongs the credit of promoting the celebration and they have been actively assisted by Dr. A. F. Maisch, W. A. Crawford and others.

The program, which we publish in full, has been arranged to cover two days—July 4 and 5—and is sufficiently varied to please everybody. Attorney W. F. Cooper, an eloquent speaker, will deliver the oration from the band stand, and preceding and following the speaking fifty little girls, under the direction of Rev. A. K. Stabler, will sing American national songs. Rev. Stabler requests that all girls who wish to take part in the celebration make the fact known to him at the parsonage as early as possible.

The Morenci baseball club, one of the best in the territory, will play two games with the Globe team. Many entries are promised for the miners' drilling contests and some fast work is assured. All the other events on the fourth will undoubtedly be well contested. July 5 will be given over to horse racing and steer tying, events to take place at Miami race track. There are a number of fast horses already here, to be entered, and several will be brought from a distance to contest for the purses.

When it comes to steer tying Globe can honestly lay claim to having more expert ropers than any other place in the southwest, several of whom have held championship records. There will do doubt be many entries for this event and some fast time recorded.

#### Program July 4

9 a. m. National songs by 50 girls dressed in white and carrying flags. Oration, Hon. W. F. Cooper. National songs by 50 girls. 10 a. m. Base ball game, Morenci vs. Globe.

1 p. m. Bronco busting, at ball park; first prize, \$50; second, receipts of \$5 entrance fee. Miners' drilling contest, in front of Miners' union building. Prizes, double handed, \$200; single handed, \$100.

3 p. m. Wrestling, at ball park; two contests; prizes \$25 each. Committee-man, John Fitzpatrick.

5 p. m. Tug of war; Miners vs. Town, \$75 prize. Committee-man, Town team, A. Trojanovich; Miners team, Simon Kinsman.

6 p. m. Mens' foot race; prize \$25. Committee-men, Ed Stewart, W. A. Crawford.

Boys' foot race, prizes \$5 and \$2.50. Girls' foot race, prizes \$5 and \$2.50.

7 p. m. Horse team race; prize \$50; Pioneers vs. Volunteers. Committee-men for Pioneers, S. C. Saylor and H. Sultan; for Volunteers, R. E. Merritt and W. A. Crawford.

#### July 5

July 5, 10 a. m. Steer tying at Miami race track; prizes \$125, \$50 and \$25. Wm. Henderson, C. A. Nesbitt and W. A. Moore.

Horse racing immediately after steer tying. 300-yard race, purse to winner, \$100. Quarter mile, purse to winner, \$125.

Half mile, purse to winner, \$200. Entrance fees go as second money. Committee-men, Wm. Henderson, C. A. Nesbitt and J. H. Thompson.

#### SUMMER OUTING—Mr. and Mrs. T. A. Pascoe left Tuesday morning for a four month's outing along the Pacific coast. After spending a couple of weeks in Los Angeles and at nearby beaches, they will go to San Diego for a short stay, and then north, visiting Oakland and San Francisco and continuing on to Portland and Seattle.

With nothing to divert them from the quest of pleasure the routes of travel and length of stops at various places will be determined solely by their inclinations, and they will extract all the enjoyment possible from the trip.

**DEATH OF A CHILD**—Mr. and Mrs. R. H. Grabe sustained a sad loss by the death of their little daughter Helen Louise, 22 months old, which occurred on Monday after an illness of four days. The funeral took place on Tuesday afternoon from the undertaking parlors of F. L. Jones & Son. The parents have the sympathy of many friends in their bereavement.

**TAKEN TO LOS ANGELES**—Morris Belknap, who suffered a stroke of paralysis about a month ago, was taken to Los Angeles on Tuesday by his partner, J. C. Knighton. The sick man will be placed in the California hospital, under the care of a specialist, and it is hoped the change of climate will also have a beneficial effect on him.

#### DISASTEROUS EXPERIMENT

A horse that had been bothering people on the hill east of the business part of the town, was caged by two thought-

less people today with disastrous results. Affrighted by the can dangling at his heels the animal ran smack on Cedar street. He plunged into another horse ridden by a boy who was thrown to the ground and badly bruised. He next collided with a buggy, which was almost demolished and finally pulled up completely winded in front of the Brookner store, where he was separated from the can. The perpetrators of the joke were arrested and are likely to have to pay dear for their fun.

#### Warned Not to Carry the Flag

The statement made to the local newspapers by J. A. Lott, chairman of the committee on arrangements for the emancipation celebration, in explanation of the failure of the colored people to parade on Tuesday has caused considerable comment. If true, as alleged, that threats of violence were made against them if they attempted to carry the American flag in parade, the incident is one of serious portent. The consensus of opinion seems to be, however, that the threat—if made—was the raving of some irresponsible and, perhaps, besotted individual and is not to be taken seriously. The matter should at least be thoroughly investigated by the local authorities.

### A SUDDEN DEATH

#### Hemorrhage of the Brain the Cause of Mrs. L. F. Eggers Demise

Mrs. Eggers, wife of Col. L. F. Eggers, died suddenly of hemorrhage of the brain at a few minutes after 9 o'clock Wednesday night. She had not been in good health for some time, but on Wednesday was able to attend to her household duties. Having retired early—about 8 o'clock, Mrs. Eggers complained of dizziness and her husband went to the rear of the house to get some ice for her relief. During his absence Mrs. Eggers fainted and fell from the bed and upon the Colonel's return to the room he found her lying upon the floor. She recognized him and was able to speak. Assistance was called and a physician sent for, but Mrs. Eggers lapsed into unconsciousness and soon passed away.

Mrs. Eggers' sudden death is a severe shock to her many friends as well as to her husband. She was a woman of education and refined tastes, and a believer in the Christian religion.

A telegram was sent to a brother residing at Nogales, notifying him of his sister's death, and pending a reply the time for the funeral has not been set.

#### Assailant a Poor Shot

Ben Bound, a miner known in Globe and Bisbee, was fired upon six times last Thursday night by some person unknown, in the Oversight mine at Cananea, where Bound has a contract for getting out ore. None of the shots took effect. The Bisbee Review says the identity of the man behind the gun is not known, but suspicion rests on a Mexican who was a leader of a small band of those bent on exterminating the whites when Cananea was in the throes of her recent uprising. No arrests were made. The affair has caused some excitement as many Americans feel that they will never be safe in Cananea if such indiscriminate shooting keeps up.

### SOLOMONVILLE VS. GLOBE

#### Two Games of Ball Played Sunday—An Even Break

The base ball fans were out in force last Sunday to witness the games between the Solomonville and Globe teams. In the morning game the visitors seemed to lack confidence in themselves and played a loose game. For five innings, during which Collins was in the box for the home team, Solomonville drew blanks. In the sixth inning, Ramus having relieved Collins in the box, the visitors hit the ball for three singles and a double which yielded three runs. They scored one more run in the ninth, making their total 4. For Globe, Green scored a run in the first inning. In the third the home team scored five runs on as many base hits; and added three tallies in the fourth on two singles and errors by their opponents. The seventh inning yielded two runs, making their total 11.

The afternoon game attracted a great throng of spectators, among whom were many rooters with horns of the noisiest kind. A good game was expected and it would have been closely contested had the Globe management put Collins in the box at the commencement, as was fully expected, he having been taken out of the morning game in the fifth inning, in order to save him for the big event in the afternoon. But Whitely was put in to pitch and the score shows what the visitors did to him. The fourth inning was a Waterloo for Globe. The visitors hit the ball hard and the home team assisted them by making as many errors as possible, the result being that Solomonville piled up eight runs. Collins was put in the box in the fifth and held the visitors down to a few scattering hits. They scored one run in the fifth and two in the eighth, making a total of 11.

Globe, after the first three innings, went to pieces and the official scorer was lenient in only charging them with eleven errors. Their two runs were made in the fourth inning. Green reached first on a passed ball and was advanced to third by Rose, who hit to left for a base. Green scored while Atkins was being thrown out at first. Rose in attempting to steal third, but a wild caught between bases, but a wild throw by the second baseman saved him and he crossed the plate safely.

Marques pitched a fine game only a few scattering hits being made off his delivery. Doran's catching and throwing were well nigh perfect and as a team they worked together admirably.

For Globe Collins, Rose, Kellner and Atkins played good ball, while Green succeeded in making the most runs—four in the first game and one in the second.

The diamond was in good condition and the accommodations all that could be desired.

## DISTRICT COURT SESSION TO END

Adjournment Probably Friday Few Cases Remain to be Disposed Of

### FOLLOWERS OF RED FLAG

They are Barred from Receiving Citizenship Papers in Judge Nave's Court—Several Couples Divorced—Cases that go Over to Next Term

The district court has been steadily grinding since our last report and the end of the session is now in sight. It is probable that the court will adjourn tomorrow afternoon.

A case that was of importance to the owners of mining claims generally, and the result of which trial it is hoped will have a tendency to discourage claim jumping, was the Globe & Arizona Development company vs. W. A. Taylor et al, to quiet title to mines. At the trial of the case the court held closely to the doctrine which Judge Kent announced in the case of Cunningham vs. Pirung, and on the showing that Taylor's claim was a relocation of the property of the plaintiff, held that defendant having admitted the validity of the location of plaintiff, could not contest the plaintiff's location work.

The only question presented was whether or not the plaintiff had caused its assessment work to be done prior to defendant's relocation. Upon this point the evidence was overwhelming, the plaintiff having expended over \$1000 on the development of the claim in question and the claim adjoining.

At the conclusion of the case the court submitted to the jury an interrogatory, in effect, as to whether the work on the adjoining claim developed the claim in dispute. The jury promptly answered yes and the court rendered judgment for plaintiff.

The following named persons were admitted to citizenship: Patrick Savage, Thomas Meyer, John Henry Carle, Antonio Blanco, Jacob Judask, John Giacomino and Joseph Stinac.

Among the pertinent questions asked by the court of applicants for citizenship and their witnesses was, "Did you ever march behind the red flag?" to which all answered in the negative.

Manuel Gonzales, from Tempe, a witness in the Felipe Sanchez case, was allowed \$47 for necessary expenses and H. L. Colvig, from Navajo county, witness in the Jacob Isaacson case was allowed \$16.50 for expenses.

Territory of Arizona vs. J. S. Parks; assault with a deadly weapon. Plea of guilty entered. Fine of \$125, or in default of payment 125 days' imprisonment in county jail.

Territory of Arizona vs. Felipe Sanchez; tried for murder of Plunkett and Kennedy. Jury disagreed and was discharged. Case continued for the term and prisoner remanded to the custody of the sheriff.

Territory of Arizona vs. Jacob Isaacson; rape. Verdict not guilty.

Territory of Arizona vs. Jacob Isaacson; infamous crime. Referred to next grand jury. Bail fixed at \$500. Defendant remanded to custody of sheriff.

Frederick Olsen vs. J. N. Porter. Conversion. Dismissed.

Frederick Olsen vs. W. T. Armstrong. Conversion. Dismissed.

Frederick Olsen vs. W. C. Hayes. Conversion. Dismissed on motion of defendant for want of prosecution.

James H. Minter vs. The First National Bank of Globe. Damages. Non-suit granted.

Mary Serra, adm., vs. James Blesant. Debt. Dismissed on motion of plaintiff.

Walter Webster et al vs. J. C. Evans et al. Establish title. Judgment in favor of plaintiffs.

Roy Kirkpatrick vs. Anna D. Kirkpatrick; divorce. Decree granted plaintiff; care of child awarded defendant and plaintiff to pay \$25 per month for support of child until the further orders of the court.

A. A. McKinnon vs. J. Holden & Sons; damages. Continued for the term.

Ella B. Skelly Tregallis vs. J. F. Tregallis; divorce. Dismissed.

Edward Hayes vs. Daisy Hayes; divorce. Passed for the term.

Carrie E. Fiske vs. Homer W. Fiske; divorce. Decree of divorce entered.

L. N. Jenkins vs. George Walter Shute; replevin. Judgment for plaintiff.

Barclay Higdon & Co. vs. Tom Allsup; debt and attachment. Judgment for plaintiff.

Samuel Spessia vs. Emma Spessia. Divorce. Judgment for plaintiff.

Geo. E. Shute vs. Live Oak C. M. C. & S. Co., Globe Commercial Co., Boone & Strang and O. D. C. & S. Co. Garnishees. Judgment for plaintiff.

Geo. C. Campbell vs. Matilda Finletter, et al. Debt. Non suit granted.

Laurel Murdock vs. Frank Murdock. Application for restraining order denied.

Henry Mounce vs. W. F. Harte. Appeal dismissed.

L. F. Eggers vs. Nellie Mallory. Defendant enjoined and restrained from in any manner disposing of property, promissory note \$10,000 and stock of Globe-Boston Company.

**KNOWS A GOOD THING**—There are a lot of people in this world who don't know a good thing when they see it, but there are others who do. Among them is N. S. Berray, superintendent of the Old Dominion mine at Globe, owned by Phelps, Dodge & Co. Mr. Berray has lived in Arizona for 25 years and has come to realize that

there is no climate on earth that equals it. Recently the Phelps, Dodge Co. tried to induce him to take a trip to Europe at its expense, but he wouldn't listen to it. It is too far away from Globe and he doesn't propose to be deprived of Arizona's fine climate long enough for such a journey, even if the hospitality of the old world is thrown open to him. Mr. Berray compromised the matter by agreeing to take a brief rest on the coast.—Phoenix Republican.

#### An Excellent Beginning

The report of the condition of the Globe National Bank, at the close of business June 18, 1906, is published in another column. This is the first statement made by the Globe National and in view of the fact that it represents the business transacted during only the first eighteen business days after the bank was opened, is a remarkably good one, the deposits totaling \$61,347.26. Cashier A. G. Smith has had many years' experience in the banking business and is progressive as well as conservative.

The other officers and directors of the Globe National bank are all well known business men of integrity and good financial standing, and customers of the new bank may feel assured that their interests will be well safeguarded and every reasonable accommodation extended to them.

### SCHOOL APPORTIONMENT

As Made by County Superintendent P. O. Robertson June 20, 1906

Globe district No. 1	\$2848 00
Grapevine district No. 3	275 90

San Carlos district No. 23	222 50
Pool district No. 25	222 50
	\$5889 70

"We're very apt to have some expert base-ballists from Clifton take up their residence in Globe shortly," said an enthusiast of the national game to a BELT reporter the other day. "They are Billy Doran and his side-partner Jesus Marquez, who played here last Sunday, and won such golden opinions. I understand Billy, who is a first-class electrician as well as a fine ball-tosser, has been offered \$150 a month to work here and, of course, to play ball, while Marquez has been offered \$100 per month to scamper around the Globe diamond and do nothing else. They are way-up, you'd better believe, and I hope they'll accept—don't you?"

### AN OLD TIME MINER SUDDENLY PASSES AWAY

Patrick C. Sullivan, a pioneer miner of this district, died at 3 o'clock this afternoon and his body lies at the residence of his sister, Mrs. Annie Cadman, with whom he has resided for some time. Asthma and stomach trouble caused Mr. Sullivan's death, after a sickness of seven months. He was a native of Ireland and was unmarried.

Mr. Sullivan has been a worthy and enterprising citizen of Globe for 18 years. Many will miss him. In spirit he was friendly, charitable and sympathetic and not a few have lost his aid and comfort. It can be said of him truly that he possessed a miner's hand and heart.

At the time of his death Mr. Sullivan was perfecting a mining deal that would have been of considerable benefit to the district, as were several other like transactions that he had made during his active life here. His estate will consist of several valuable mining properties which his heirs must now carry forward to production and dividend.

Mr. Sullivan is survived by another sister living in California, who has been apprised of his passing away and may arrive in time to attend the funeral, which will occur from the Catholic church. With many other friends the SILVER BELT extends its sincere condolence to his sorrowing relatives.

### PROMINENT VISITORS FROM GILA VALLEY

Several prominent citizens of Graham county accompanied the Solomonville ball team and spent Sunday in Globe. Among them was the manager of the team, Mit Simms, county recorder of Graham county, who was accompanied by his wife, daughter of the late Judge McCabe of Globe; Ben R. Clark, treasurer of Graham county; W. T. Webb, member of the legislative council; W. A. Gillespie, the leading farmer of the Gila valley and delegate to the last national democratic convention, and Luther Green of Solomonville, one of the best known men of Graham county.

**A PRETTY WEDDING**—The marriage of Wesley Hayes and Miss Mary Jones took place on Wednesday evening at the new and pretty home provided by the bridegroom on Nofstager hill. Judge Hinson Thomas officiated and a number of the relatives and friends of the contracting parties witnessed the ceremony. Light refreshments were served and a reception followed, the young couple receiving the congratulations of all present.

Milo W. Porter, agent at Bisbee of the Five Points Mining company, is in Globe to consult with the officers of the Five Points. The company's property on Pinto creek is reported to be in fine condition and the development work thus far done has opened an important body of high grade ore. The main shaft, 300 feet deep, is now being timbered with square sets. Within 30 days sinking will be resumed and continued to a depth of 500 feet.
